(1) The College will provide a public school education on English lines for Indian and Anglo-Indian youths who desire subsequently to enter the Royal Military College, Sandhurst, with a view to obtaining commissions in the Indian Army. It is intended for those who wish to make the army their profession in life. The course of study at the College will, however, be such that, should a boy fail in the examination for entrance to the Royal Military College, Sandhurst, he will be in as good a position to pass the University entrance examination as if he had been educated at an ordinary school.

(2) Candidates will be accepted from—

(*a*) Provinces of British India ;

(*b*) Indian States.

Nominations will be made by His Excellency the Commander-in-Chief on the recommendation of the Local Government or Administration or the Political officer, as the case may be.

(3) Candidates must be under 12 and over 11 years of age on the 1st June 1929.

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Station Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with Appendix A to this notification.

(5) The fees will be Rs. 1,500 per each school year and are liable to enhancement hereafter, if

circumstances require. The fees payable by candidates who are sons of Indian officers of good service will be determined by His Excellency the Commander-in-Chief in each particular case. These fees will include tailors, messing, school servants, washing and mending, and medical attendance of the ordinary kind, and, as initial provision, one suit of the uniform to be worn by students when at the College.

Full fees for a College term (January to May or August to December, as the case may be) will be charged whenever a parent or guardian fails to give to the College authorities a full term's notice of the withdrawal of a cadet.

In the event of it becoming necessary for cadets to be admitted into a civil hospital, all charges incurred will be borne by the parents or guardians of the cadets.

(6) Parents or guardians of candidates are required to attach to the applications a declaration in the following form:—

"I, _____, father / guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, having made myself acquainted with the fees payable at Dehra Dun and subsequently, at the Royal Military College, Sandhurst, am able and willing to pay the prescribed fees and meet the incidental expenses.

"It is my intention to make the Army my son's / ward's profession in life.

*Signature of parent or guardian*_____."

The estimated expenses of Indian cadets at the Royal Military College, Sandhurst, as recently revised, are published for information as Appendix B to this notification.

(7) Entry to the College will not be open to candidates who are already married, and parents or guardians of candidates are required to furnish a declaration to the effect that their sons or wards are unmarried and that they will remain bachelors while cadets at the College and also while cadets at the Royal Military College, Sandhurst.

(8) One general mess will be maintained. All students will be required to mess together. Special care will be taken that no food is served in the mess which could in any way offend the religious susceptibilities of any student.

(9) All applications should be submitted to the Private Secretary to His Excellency the Governor of Madras, Madras Governor's Camp, not later than the 15th May 1922 in the form below. No applications received after the 15th May will be considered.

MERCHANT SHIPPING

New Delhi, the 13th April 1929

No. 425-M I. (2)/28.—The following Press Communiqué regarding the grant of three scholarships tenable in England for the training of Indians in Marine Engineering and also the rules and conditions for the grant of these scholarships are published for general information :—

PRESS COMMUNIQUÉ.

The question of the training of Indians as Marine Engineers has been engaging the attention of the Government of India for some time past. The rules for the examination of Marine Engineers prescribe certain qualifications which a candidate must possess before he can sit for examination for a second-class Engineer's certificate. Generally speaking, the qualifications required fall under two heads, (*a*) workshop service and (*b*) sea service. Practical training in the construction and erection of marine engines cannot at present be obtained in India and to enable candidates to obtain the necessary training the Government of India have decided to award this year three State technical scholarships of the value of £240 per annum each (inclusive of a bonus of £40) tenable in England for the period of training, subject to certain conditions. The total period of training will extend from six to seven years. Of this four to five years will be required to complete the training at one of His Majesty's Dockyards or at a private firm of marine engineers as may be arranged by the High Commissioner for India. The period of apprenticeship will be followed by training for eighteen months at sea in a foreign-going ship, arrangements for which will also be made by the High Commissioner.

2. The scholarships will be awarded after a competitive examination which will be held at different centres in India on the 15th July 1929 and following days. Rules and conditions for the grant of these scholarships and the rules for the competitive examination for the selection of candidates for the scholarships are being published in Part I of the *Gazette of India*, dated the 13th April 1929. Applications for entry to the examination must be made on the prescribed form copies of which can be obtained from the Secretary to the Government of India, Department of Commerce, and they must reach that Department on or before the 15th June 1929.

RULES AND CONDITIONS FOR THE GRANT OF THREE SCHOLARSHIPS IN 1929 TENABLE IN ENGLAND FOR THE TRAINING OF MARINE ENGINEERS.

I. Candidates will be required to appear at an examination. The regulations prescribing the qualifications of candidates, the rules for the examination and the method of selection are detailed in Appendix II to these rules.

II. The selected candidates will be apprenticed for training at one of His Majesty's Dockyards or at a private firm of marine engineers as may be arranged by the High Commissioner for India. This apprenticeship will extend over a period of 4 to 5 years.

III. The period of apprenticeship will be followed by training for 18 months at sea in a foreign-going ship in order to enable the candidates to sit for the Second Class Engineers' Examination of the Board of Trade.

IV. The selected candidates will be required to observe the rules laid down by the Government of India or the High Commissioner (*vide* below).

Rules required to be observed by the scholar.

1. All Government scholars are required to avail themselves of the information and advice which the High Commissioner for India is in a position to give them, and to apply to the Education Department of the High Commissioner's Office for instructions as regards their studies and in any circumstances of difficulty, and in regard to any matter requiring the sanction of the High Commissioner or the Government of India.

2. Every scholar should, on reaching England, at once report himself to the Education Department of the Office of the High Commissioner for India in London, 42 Grosvenor Gardens, S.W. 1. Accommodation for new arrivals is provided at 21 Cromwell Road, South Kensington, S.W. 7.

3. Every scholar must obey all instructions which he may receive from the Office of the High Commissioner.

4. Every scholar must from time to time, whenever the High Commissioner for India requires it, submit a certificate from the authority under whom he is working, showing that his conduct and progress have been satisfactory.

5. Every scholar must give a written undertaking that he will at once and without discussion of possible alternatives devote himself exclusively to the course of training laid down for him, comply with whatever instructions are given and do whatever work they may involve. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

6. Every scholar will be required to keep a concise diary of his work to be submitted to the High Commissioner for India at the dates laid down in the rules for the keeping of such diaries.

7. Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the Office of the High Commissioner. It will begin from the date of the scholar's reporting his arrival in England, and the High Commissioner will disburse it to the scholar in such instalments as convenience may dictate. Three months after the date of reporting arrival the amount to the ensuing official Quarter Day* will be paid and subsequent payments will be made in advance on or after each official Quarter Day.

8. Every scholar is required to lodge with the High Commissioner in London, before his arrival in England, the sum of £40 for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

9. The necessary travelling expenses of scholars by second class or by third class if no second be available, will, if sanctioned, be defrayed by the High Commissioner. Applications for payment of these charges should be made to the High Commissioner. But charges for private tuition, unless

* *Note.*—The official quarter days are the 1st January, the 1st April, the 1st July and the 1st October.

specially sanctioned, for books, instruments, hotel bills and medical attendance must be paid by the scholar himself.

10. No claim can be admitted for the payment of any expenditure unless the scholar has obtained previous sanction from the High Commissioner.

11. The allowance will be at the rate of £200 a year plus a bonus of £40 a year and will be reduced or withdrawn while the scholar is being trained at sea on a foreign-going ship. Every scholar who, not being disabled by illness or prevented by any other cause which the High Commissioner may consider sufficient, fails to comply with the rules here set forth will forfeit his scholarship. It may be terminated at any time by the High Commissioner, if a scholar fails in health or conduct, in which case he will be provided at the discretion of the High Commissioner with a second class passage to India.

12. He must also execute a bond in the form appended (Appendix I) undertaking to pay a sum up to Rs. 20,000 if he fails to return to India when instructed to do so or if he settles in some other country within five years of the termination of his scholarship.

13. A free second-class passage from India to England will be provided and the cost of the overland journey from Marseilles will in no circumstances be refunded to a scholar unless he is expressly instructed by Government to travel overland and is provided with a steamer ticket to Marseilles only. In the latter event the High Commissioner for India will refund the rail and baggage expenses on the direct instructions of the Government of India.

14. The scholar should clearly understand that the grant of the scholarship does not entitle him on completion of his course to an appointment in Government service, but he should immediately on his return to India, report his arrival to the Government of India.

No. 549.—The Board of Commissioners for Hindu Religious Endowments brings to the notice of the Government that the temple of Sri Venkateswara Swami at Ramasamudram, hamlet of Tangopalu, Nandikotkur taluk, Kurnool district, the annual income of which is below Rs. 250 and which is thus outside the scope of the Madras Hindu Religious Endowments Act, 1926, is in a ruined condition, that puja in the temple is not regularly performed and that no accounts have been maintained in regard to the collection of rents. It is also reported that the President of the old Nandikotkur Taluk Temple Committee who had leased out the temple lands allowed the lease amount to be in deposit with the karnam of the village and that in spite of reminders, no steps have been taken to utilise the receipts towards the reconstruction of the temple. In these circumstances, the President of the Kurnool District Temple Committee recommends that the provisions of the Hindu Religious Endowments Act, 1926, may be extended to the temple in question, so that a suitable trustee may be appointed for the temple and necessary instructions issued to him for its renovation for the revival of the services therein, for the recovery of the lands and for the realisation of the temple funds in deposit with the karnam. The Board requests the Government to apply to the said temple all the provisions of the Hindu Religious Endowments Act, 1926, except section 69 (1) relating to the levy of contributions by the Board.

Before issuing a notification as suggested by the Board, the Government desire to ascertain whether any worshipper at this temple has any objection to urge against such application. If no objection is received by the Government within a month from the date of the publication of this notification in the District Gazette, the Government will proceed to issue a notification, under the proviso to section 4 of the Act, applying all the provisions of the Act except section 69 (1) to the said temple.

DEPARTMENT OF AGRICULTURE.

THE GROUNDNUT CROP OF 1929—FIRST REPORT.

The area sown with the summer or irrigated crop of groundnut in the districts of South Arcot, Chittoor, North Arcot, and Tanjore during the three months January to March 1929 is estimated at 41,500 acres against 44,000 acres estimated on the corresponding date of last year. The reduction in South Arcot is due to the fact that wet lands on which groundnut was sown in previous years have been cropped with paddy owing to the sufficient water-supply in tanks.

2. Figures by districts are given below :—

District.	Estimated area sown with groundnut from January to March. 1929. acres	1928 acres
South Arcot	30,000	32,000

DIRECTIONS TO PARTIES TENDERING.

Tenders to be in sealed covers properly endorsed.—Tenders must be submitted in sealed covers, the name of the tenderer and the name of the work being noted on the cover.

2. No reference should be made to the Public Works Department current schedule of rates or to the rates included in the estimate for this work. These documents are confidential and will not be available to the public.

3. If materials for use on the work are to be supplied by Government the fact is noted in the contract agreement and the price at which the particular material is to be supplied is clearly shown. Tenderers must accept the material at this price and

should quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for those materials the charge to the party executing the work will remain as originally entered in contract agreement.

4. *If*, at any time subsequent to the execution of this contract, Government materials other than those specified in the contract agreement are to be supplied to the contractor for use on the work they will be charged at the market rate prevailing at time of supply or stock issue rate whichever is greater. No carriage or incidental charges will be borne by Government in connexion with the supply.

The contractor will be informed in writing of this change and he should intimate in writing the rate which he demands for finished work in view of the fact that he is to use Government materials

5. *No alterations to be made in the documents.*—No alteration which is made by the tenderer in the contract agreement, "the conditions of contract," "the drawings," or "the specification" will be recognized; and if corrections are made, the tender will be liable to rejection.

6. *Quantities in the schedule are only approximate.*—The quantities have been taken out for the purpose of arriving at an approximate cost of the work and are noted in Schedule A in which the tenderer enters his rates. But they do not necessarily indicate the actual amount of work to be done and are subject to alterations, omissions, deductions or additions, as provided for in the "conditions."

7. *The schedule of rates payments will be made on net measurement.*—The attention of tenderers is drawn to the note at the top of the "schedule of rates and approximate quantities"—Schedule A. The rates the tenderer quotes are for finished work. This condition should not be lost sight of when quoting a rate for work such as cutstone where the wastage is necessarily great.

8. *Method of entering rates for various items of work.* In quoting prices in the "schedule of rates"—Schedule A—the items may be divided into three classes as below:—

(a) Items such as excavation, masonry, teakwood, etc, for which a rate per unit is given.

(b) Items for which no measurement is required or for which the tenderer demands or quotes a fixed price irrespective of what the item may be estimated to cost—

Example—

(i) *Scaffolding.*—If his rate for items included in (a) does not cover the cost of scaffolding, the contractor will enter a sum to cover the cost.

(ii) Temporary latrines for work people, or temporary sheds may also be priced similarly.

(c) Items which are to be dealt with under clause 15 of the "conditions"—Schedule D—and which should be brought under the head of "provisional items" no price being given in the schedule of rates; the items must, however, be entered so that it may be clearly understood that the rates quoted for the various items of work referred to in paragraph (a) above do not include such items. *If items of this sort are not entered*, it will be assumed that the rates quoted include them.

The following items may be taken as examples:—

"Water for work."
"Marking out site."
"Clearing site."
"Hire of tools and plant."

9. *Totals to be calculated by the tenderer.*—The "schedule of rates"—Schedule A—must be complete, that is, the approximate quantities must be multiplied by the rates quoted, and the amount entered. All the items, paragraphs 8 (a), 8 (b) must be totalled and the grand total entered by the tenderers.

10. *If further information is required*—The Executive Engineer of the division will be pleased to give any further information to tenderers should they so require, but it must be clearly understood that tenders not received in order, and according to instructions, will be liable to rejection.
